May 24-25, 2011- Dallas, TX

## INTERMEDIATE HOME CARE CODING

With Lisa Selman-Holman

Prepare for the HCSD Certification exam and take advantage of online testing through the BMSC\*

Need More Information? Call: (214) 550-1477

Online HCSD Exams Go to [www.medicalspecialtycoding.com](http://www.medicalspecialtycoding.com) for more information.

Think you have the basics down pat? We start with a quick overview of fundamental coding skills and then progress to coding in PPS, with special attention to coding the case mix diagnoses appropriately. The participants will have the knowledge to code accurately, assure all case mix points are captured and do not need to fear 'upcoding'. With governmental entities and contractors such as the OIG, PGBA and the ZPICs targeting homecare, this is the time to ensure that your coders are coding correctly and to protect your revenue. This class will provide plenty of opportunity to try out your skills in coding common home care scenarios, along with more complex scenarios. Application of the official guidance is the name of the game. Find out how diagnoses affect your outcomes and discuss those diagnoses causing problems in medical review. This seminar will be good preparation for those interested in taking the HCS-D exam.

Intermediate Coding provides **9.75 Nursing Contact Hours** and **9.75 clock hours** for Administrators/Alternates; **10 CEs** toward fulfilling the HCS-D Certification maintenance requirements.

"This continuing nursing education activity was approved by the Texas Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation. "
