****Advanced Coding on OASIS for Home Care Professionals****

Class Description

This Advanced Coding class is not for the faint of heart or those with malaise and fatigue. After a quick review of the sequencing rules, you'll spend the day coding complex scenarios that include intense study of the coding guidelines. These coding scenarios include the conditions that you'll need to code for the HCS-D certification and recertification exam so they are an excellent study aid! The class includes all the latest info on coding!

"This session provides 6.5 nursing CE, 7.0 HCS-D hours, and 6.5 clock hours for Texas Administrators/Alternates.

Selman-Holman & Associates, LLC is an approved provider of continuing nursing education by the Texas Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.

Lisa Selman-Holman, JD, BSN, RN, HCS-D, COS-C, HCS-OO

Objectives

- Explain the relevance of OASIS data items for diagnoses to payment.
- Prioritize diagnoses based on clinical assessment and planned interventions.
- Apply specific sequencing rules as required by the Official Coding Guidelines.
- Use the coding guidelines to determine the appropriate use of V and E codes.
- Use the Coding Manual to find codes and sequence diagnoses for home care scenarios.
- Analyze clinical information and coding guidelines to determine diagnoses and the correct use of the OASIS C data items.
